

MAXIPURE

High Capacity Activated Carbon Filter

Selected premium grade activated carbon

Effective on wide variety of odors and gases

Airmax-Bag after filter prevents carbon dusting downstream

Blended Media for special gases is available

Refillable Media trays

Airmax "MaxiPure" is one of our gas phase absorber product. Made from selected premium grade activated carbon which is a superb for odors and gases. With galvanized steel frame and powder coated perforated trays type is selected to substantially increased the amount of adsorption surface.

Airmax-Bag after filter is supplied to prevent carbon dust on downstream side.
